## Notes

Unless otherwise noted, all data are for 2014-15 and include all grades offered by the district.
In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit EdSight (EdSight.ct.gov).
State totals are not displayed as they are not comparable to district totals.
Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to ensure student confidentiality.
N/A is displayed when a category is not applicable for a district or school.

## Performance and Accountability

## District Performance Index (DPI)

A District Performance Index (DPI) for the Smarter Balanced and Connecticut Alternate Assessment(CTAA) is the test performance in a given subject for all students in the district. The DPI ranges in value from 0 to 100 points. Connecticut's ultimate target for a DPI is 75 because in a district with a DPI of 75 or above, students will have performed at or above the 'goal' level on the majority of tests.

| MATH | Grade 4 | Grade 8 | Grade 12 |
| Connecticut | $41 \%$ | $36 \%$ | $32 \%$ |
| National Public | $39 \%$ | $32 \%$ | $25 \%$ |

'NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view student subgroup performance on NAEP, click here.

${ }^{2}$ The Connecticut Physical Fitness Assessment (CPFA) is administered to all students in Grades 4, 6, 8 and 10. The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.
${ }^{3}$ Only students assessed in all four areas are included in this calculation.

${ }^{1}$ The four-year cohort graduation rate represents the percentage of first-time 9th graders who earn a standard high school diploma within four years. Statewide, district and school results for cohorts of 2010 through 2013 are available online ${ }^{2}$ Cohort count includes all students in the cohort as of the end of the 2013-14 school year.
${ }^{3}$ Targets are calculated when there are at least 20 students in a cohort in the base year (i.e., 2010-11).
${ }^{4}$ Targets are not displayed at the state level.

${ }^{5}$ College readiness exams and benchmark scores are as follows:

- SAT ${ }^{\circledR}$ - composite score of 1550 or higher
- $\mathrm{ACT}^{\circledR}$ - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- $\mathrm{AP}^{\circledR}-3$ or higher on any one $A \mathrm{P}^{\circledR}$ exam
- $\mathrm{IB}^{\circledR}-4$ or higher on any one $\mathrm{IB}^{\circledR}$ exam
- Smarter Balanced - Level 3 or higher on both ELA and math
${ }^{6}$ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percent. Sources:

## Next Generation Accountability Results

These statistics are the first results from Connecticut's Next Generation Accountability System for districts and schools. This system is a broad set of 12 indicators that help tell the story of how well a school is preparing its students for success in college, careers and life. It moves beyond test scores and graduation rates and instead provides a more holistic, multifactor perspective of district and school performance and incorporates student growth over time.

## Narratives

## School District Improvement Plans and Parental Outreach Activities

Birch Grove Primary School engaged in PLC Teams, utilizing data to improve student performance. The PLC teams established common goals in literacy and numeracy. Staff worked closely to develop LA Curriculum Units with Writers Workshop. Staff identified assessments, cut-points, progress monitoring data, universal screens and interventions. Full day K was implemented, and Grade 2 worked to adopt a new math program. Early intervention (Teacher Assistance Team) identifies students in need. BGP special education faculty worked with a consultant to ensure student needs are met while building student independence. PBIS programs helped maintain a positive environment in the building. In addition to volunteering, parents participate yearly in a survey and are active members on the school safety team as well as the Tools For Schools Team. A Parenting class is offered by the school, through the FRC.
Tolland Intermediate School is in the 3rd year of the implementation of a co-teaching model. The team teaching approach enables two educators to adapt instruction to meet the needs of a diverse classroom community. Our Tier III reading and math intervention programs serve to provide small group targeted intensive. During two intervention blocks, special education teachers along with reading and math specialists provide targeted help. Our school-wide Hawk Rules: Have respect, Act responsibly, We Are A Community and Keep Yourself Safe, serve to guide everything we do at Tolland Intermediate School. Each school year begins with every T.I.S. student being taken through a series lessons highlighting our school rules. Tolland Middle School executes Mastery Grading. Parents have easy access to their child's team. The team model allows us to provide personalized attention to students. The PBIS programs, partnerships with social services, community workshops, teaming, SOAR reports, and everyday practices establish a positive learning environment. Software allows parents to sign up for daily updates of academic progress and attendance. PBIS behavioral reports keep parents up to speed on where their children are at relative to the school's Core Values. Technological resources (i.e. Google Apps) foster ongoing communication about individual students. TMS offers Breakfast and Dinner with the Principal programs for community members to come up with collective solutions for problems. TMS also posts curriculum and social information @ \#TollandMS Tolland High School focuses on improving literacy, school climate, and increasing the use of technology. PLC teams developed goals and strategies aligned to expectations. A new end-of-year survey was administered to gather input on school climate. Our Community Advisory Council solicits input on evaluating leveling, grade weighting, teen drug and alcohol use, and safety concerns. An advisory curriculum provided academic support and coaching, promoted meaningful student-teacher relationships, and established a sense of belonging, connectedness, and pride in the Tolland High School community. Teachers in the LA and mathematics department implemented new curriculum. The Student Intervention Team of school administrators, counselors, the psychologist, and a social worker met on a weekly basis to discuss intervention. Literacy intervention classes support students in LA and math. A strong emphasis is placed on inclusion.

## Efforts to Reduce Racial, Ethnic and Economic Isolation

The schools engage regularly in activities to support families in need, donating food, clothing, and other items. The students work independently by school, and in collaboration with organizations like the Tolland Junior Women, to address economic disparities and provide community programming. The TPS curriculum includes programs on African drumming and culture, as well as other cultural explorations (i.e. Mexico, Spain, etc.) and the PBIS programs in the schools encourage responsible behaviors and actions. Student Council, and Service Corp groups work in the community to promote tolerance, acceptance, and social responsibility. TPS Schools have Culture and Climate committees that include parents, and help with cultural and civic minded programming. One such effort was a program on homelessness. The Social Studies classes engage in cultural relativity programming, as does ELA classes thereby giving students exposure to a wide variety of authors and literary perspectives.

The TPS provide educational opportunities for students that promote respect and an appreciation for individual and cultural differences. A course in Native American Studies is offered at Tolland High School. The curriculum emphasizes the experience of the original inhabitants of North America and the diversity which existed among tribes. In addition to bringing in speakers from different native tribal nations, student activities include field trips to museums, sweat lodges, and native reservations. Fine Arts instruction has focused on minority and multi-cultural art and musical expression. Concerts have included pieces composed to celebrate diverse origins.

Strategies to include multicultural references and diversity are currently being added to all relevant curricula. English courses have included new units on WWII Japanese-American internment, Russian culture, African-American authors and Native American experiences. The Gay-Straight Alliance conducted activities such as the Rainbow Campaign to promote respect and tolerance in our school. Students at the high school worked collaboratively with local senior citizens to pack over 100,000 meals as part of a community fundraiser. Tolland High School students have dual-enrolled in magnet and regional school opportunities.

# District Profile and Performance Report for School Year 2014-15 Tolland School District 

## Equitable Allocation of Resources among District Schools

Schools are organized into cost-centers with Principals taking the role of "cost-center" managers. Schools receive allocations and reductions of resources based on enrollment and program considerations. Recently, the entire school system underwent an energy review, and all schools adhere to the same set of energy standards. These energy standards and systems have provided additional opportunities for equity in policy and distribution of monetary and energy resources. Three schools in the district have three grades ( $\mathrm{K}-2,3-5,6-8$ ) with the high school housing four grades. The high school receives additional resources due to its larger school population and physical plant needs, but each school receives allocations consummate with enrollment and the needs of the physical plant.

Custodial and maintenance resources are equitable across the district as well with a workforce matched to the enrollment and physical plant needs of each school. The district intends to expand these resources in the future to continue to balance out the allocation and provide the most equitable distribution of human resources.
